

PROJECT MANAGER

Doppio Group is the leading software integration provider for global manufacturing and distribution organizations running Infor M3. Doppio Group provides integration services and scalable communication methods, resulting in improved business-to-business transactions and transforming the way businesses communicate.

Doppio Group is currently looking for an experienced professional services project manager to drive on-time, high quality deliverables for its customers. The project manager will liaise with customers and the project team to ensure customer needs are addressed timely. The project manager will work closely with customers to recognize new opportunities for problems to solve. Additionally, the project manager will continually identify and implement best practices to promote scalability of Doppio Group's consulting practice.

Primary Responsibilities:

- Work with customers to understand their needs and requirements
- Lead the project team to ensure on-time delivery of best-in-class solutions
- Organize and ensure adherence to project plans
- Instill customer satisfaction within project teams

Preferred Skills and Experience:

- 3 – 5 years of prior consulting experience
- Experience with Tier I or II ERP software is preferred
- Experience in a client-facing role is a must
- Exposure to Manufacturing, Distribution, and Retail industries
- Exposure to EDI, Integrations and the software development lifecycle
- Experience with working on multiple projects simultaneously
- Experience with working on teams of all sizes, locally and remotely
- Ability to adapt to different environments
- Excellent communication skills
- Motivated self-starter

Location: San Francisco, CA

Compensation:

The Project Manager role is a full-time, salaried position with benefits. Doppio Group pays competitive market salaries and is an equal opportunity employer. Doppio Group will provide a work space and a computer.
