

# Infor Implementation Accelerator for Food & Beverage

## Streamline for faster benefits

For food and beverage companies like yours, business is always a race. You need to speed innovation, so you can beat competitive pressures and introduce new products quickly to meet changing customer tastes. And, you have to respond quickly to compliance requirements and quickly update formulations, specifications, and labels to meet constantly changing regulations. Plus, you need to accelerate your supply chain to develop the agility to deal with fluctuations in raw materials, production, and shipping.

You need to get up-and-running quickly. And to do all this, you need a streamlined implementation process that can deliver benefits in weeks, not months or years, and provide the foundation for the expanded features you'll need as your business evolves and grows.

## Find specific solutions to immediate needs

Infor® builds and implements software based on decades of industry-specific experience and first-hand knowledge of what makes a company successful. Infor Implementation Accelerator for Food & Beverage embodies that experience by providing highly focused, pre-built content you can use to rapidly create a solid business solution, while delivering a variety of outputs, including training modules and operational dashboards, to monitor the pulse of your business. It offers the functionality you need to get up and running quickly, along with all the features and functions food and beverage companies need.

By reducing the internal effort and complexity of deploying Infor Food & Beverage, Infor Implementation Accelerator reduces risk and accelerates your time to value.

**Get your business up and running quickly, reduce implementation risk, and build a foundation for continuous improvement with Infor Implementation Accelerator for Food & Beverage.**

## Implement faster, benefit sooner

Infor Implementation Accelerator delivers predefined but easily configurable menus, processes, templates, training, and much more—using examples specific to the needs of food and beverage companies. All are based on industry best practices and extensive industry expertise. With Infor Implementation Accelerator for Food & Beverage, you can put comprehensive core functions to use right away without reconfiguration.

Infor Implementation Accelerator can deliver the value and benefits of the integrated Infor Food & Beverage solution faster and more cost-effectively than many full-blown implementations using traditional implementation techniques.

This focused, flexible solution gets your business up and running quickly, delivering:

- **Quick implementation.** By pre-configuring a significant number of core processes, Infor Implementation Accelerator is flexible enough to adapt to your unique requirements.
- **Industry best practice processes.** Infor Implementation Accelerator is based on the experience Infor has gained from hundreds of projects.

- **Reduced implementation risk and stress for employees.** With Infor StepWise methodology to refine your preconfigured solution proposal step by step, fewer personnel need to be involved in developing the project scope and implementing the solution. Instead, you can focus on helping your users become proficient in the Infor Food & Beverage applications.
- **A foundation for future success.** Infor Implementation Accelerator is ideal for companies that want to implement Infor Food & Beverage applications rapidly and easily, but envision growth ahead and need long-term scalability and continuous improvement.
- **Lower overall total cost of ownership.** With Infor Implementation Accelerator, your Infor Food & Beverage solution can be less costly, less risky, and deliver faster time to benefit.

## Get lasting results

Infor Implementation Accelerator for Food & Beverage can be your final step—or your first step—in an on-going process of continuous improvement. As your business changes and grows, it's easy to expand the scale and scope of your Infor Food & Beverage solution and integrate it more fully with other applications by:

- Growing from one or a handful of sites to a global company with multi-division, multi-site capabilities
- Increasing the complexity and scope of your product line
